

# developing cross-sector leaders for the challenges of tomorrow

**next generation  
service corps**  
Arizona State University

## state your mission

Are you studying engineering to create low-cost clean water systems, or studying music to enrich children's lives in the foster care system? NGSC students choose a social mission in addition to their academic major. Your mission will drive your internships and experiences throughout the program.

## gain cross-sector experience

You will complete a series of three internships in private, public and nonprofit organizations. Internship placements will be designed around your mission, so you can experience the many stakeholders tackling the challenge you wish to solve.

## build a network

You will help lead retreats, all-Corps events, speaker series, service projects and team-building opportunities to develop a diverse network of 600 changemakers in fields outside of your major. You will also network with local and national leaders who value collaboration and cross-sector solutions.

ARIZONA STATE UNIVERSITY

## learn to lead

Along with your major, you will complete seven courses throughout the four years that lay the foundation for leadership development, social entrepreneurship and community collaborations. By completing these courses, you will earn a Cross-Sector Leadership certificate to pair with your degree.

## build trust with the military sector

Military and civilian leaders must work together on global and local humanitarian efforts, disaster relief and peacekeeping operations. Share leadership experiences with ROTC students, veterans and active military to build greater understanding of the military as a sector necessary to create solutions.

### Public Service Academy Commitment Award

ASU ensures that all NGSC members receive base tuition coverage as well as at least \$2500 in additional gift aid from the university. Each award is tailored to each individual financial aid package and is renewable for eight semesters as long as the student remains in good standing. Visit our website for more information.
